

I am Kjell-Olov Högdal

- I am one of four that restarted SwedenCpp in 2016
- I wrote my first program on ABC 80 in 1981
- My first computer was a Sinclair ZX Spectrum in 1983.
- I have been paid for programming since 1986.
- I wrote my first C++ program in 1996.
- I am frustrated C++20 is still confusingly incomplete in contemporary compilers...

Advent of Code 2022 started today!

Join me (kjelloh) at 06:00 each morning until the 25'th 🤔😊
